Executive Summary – Shop at Fingertips Sales Performance Dashboard

- Total Revenue: Generated ₱2.31 million in net sales from 5,332 valid orders, demonstrating solid overall sales activity.
- Average Order Value: Recorded an average order value of ₱434.02, indicating the average customer spending per transaction.
- Profitability: Achieved ₱866.53K in gross profit, equivalent to a healthy gross profit margin of 37.44%.
- Customer Retention: Repeat customers accounted for 43.45%, highlighting opportunities to strengthen customer loyalty and retention.
- Monthly Revenue Trend: Revenue remained relatively consistent throughout 2024 and 2025 but showed a significant decline beginning January 2026.
- Top Products: KidJoy Toys 607 and FreshCart Fashion 562 emerged as the leading products by revenue.
- Regional Performance: Central Visayas generated the highest regional revenue at approximately ₱400.79K, followed by Metro Manila and Central Luzon.
- Order Value Distribution: Most transactions fall within the lower order-value ranges, suggesting opportunities to increase customer spending through bundles and product promotions.
- Cancellation Trend: Monthly cancellations decreased significantly in 2026, although the figures should be validated against order completeness and reporting periods.
- Sales Channel Performance: Web (33.9%), Marketplace (33.5%), and Mobile App (32.5%) contributed almost equally to total revenue.
- Category Profitability: Toys generated the highest gross profit at ₱124.42K, followed by Electronics and Fashion.
- Gross Profit Margin: Monthly profit margins remained relatively stable, generally ranging between 36% and 40%, indicating consistent profitability.
- Key Business Opportunity: Focus on improving revenue performance, increasing average order value, and strengthening repeat customer engagement.
- Management Recommendation: Investigate the sharp decline in 2026 revenue and validate the latest reporting data before making strategic business decisions.
